BREAKWATER

Company Overview

Technology and Human Expertise Combined to Manage Data Risk

Breakwater helps mitigate risk and gain insight from sprawling information by combining technology automation and human expertise. Our expert consulting, software, and managed services address the challenges within information governance, disputes and investigations, regulatory compliance, privacy, and cybersecurity. Our solutions allow governance, legal, and risk professionals to locate, access, analyze, and manage information by making data transparent and actionable. Breakwater helps clients in public and private sectors mitigate risk, improve productivity, and increase profitability by transforming how they use data.

Expert Consulting and Advisory

At Breakwater, we know there is always a better way. We innovate process and automation to create efficient and effective approaches to information intelligence. Our solutions drive speed to insight for our clients, enabling them to act quickly and confidently with their information, whether responding to legal discovery, improving compliance, or protecting sensitive data. And our results deliver measurable value—reducing risk, improving quality, and saving money. Our consulting expertise includes:

Information Governance

Our unique combination of consulting and modular platform enables custom solutions to address your organization's most pressing governance needs.

Litigation & Disputes

We provide reactive expert consulting for client matters and proactive advisory services to mitigate the time, cost, and data risks associated with litigation or disputes.

Investigations & Regulatory Response

We assist companies and their legal counsel to swiftly and strategically investigate, respond to, and resolve regulatory inquires.

Cybersecurity, Privacy, and Data Risk

We bring data, technology, and industry insights together to implement solutions to prevent and respond to security and privacy challenges.

Proven Technology

Our technology solutions allow governance, legal, and risk professionals to locate, access, analyze, and manage information by making data transparent and actionable.

StoredIQ for Information Governance
Automates policy for unstructured data to drive insight and compliance.

StoredIQ for Legal
Streamlines the eDiscovery process for legal and IT stakeholders.

StoredIQ InstaScan
Accelerates risk assessments and compliance checks of unstructured data.

Breakwater Cyber Response
Helps security teams perform control failure assessment and incident response of unstructured data.

Breakwater DSAR Response

Helps organizations comply with GDPR, CCPA/CPRA, and other privacy regulations. Compliments and augments your existing DSAR compliance system by managing unstructured data.

Breakwater Inventory

Helps organizations understand the inherent value and risk associated with unstructured data across enterprise data types and storage locations.

Atlas Policy Management
Centralized record policies for your business information

Atlas eDiscovery Process Management
Empowers legal and IT professionals to manage defensible legal workflows.

eDiscovery Manager
Reduce the cost of electronically stored information.

Supported by Managed Services

The investment in technology automation supporting legal, compliance, security, and governance requirements can be maximized by leveraging experts during implementation and ongoing operation. Engaging an experienced managed services team with direct access to application developers is key to achieving your business objectives.

Breakwater offers flexible managed services solutions based upon your requirements, from implementation and transition to your team to full daily management and operation. Working with organizations worldwide in every industry, the Breakwater Managed Services team offers decades of experience in information governance and management. Companies use managed services to augment their internal teams to balance workload spikes and mitigate the risk of service disruption.
